

This has been a year of continued study of the Qabalah. I have also been sifting and sorting through the details of the 111 experience: letting go of certain parts of it. And while I find the Qabalistic connections quite interesting, I have been thinking that there is something ELSE out there. Something connected to the 111 experience that is NOT rooted in the mystical sciences of old. So far, this has been a year of reflection [REDACTED]. So far, it has been a year of letting go of a lot of things. I am still seeing references to ONE ONE ONE - in speeches given by the Dalai Lama, in the slogans for the Episcopal Church's Presiding Bishop's Fund for World Relief, and in Star-Borne's literature on the Web.

The Star-Borne is now in the process of birthing TA\*ANUA, the prototype Island of Light - a community of Conscious Oneness located in the small town of Eureka (Northwestern Montana) about 10 miles from the Canadian border. The new address for Star-Borne in Eureka is 111 Glen Lake Drive. As Solara said "It was just the number that came with the house!" I have really solidified my respect, my friendship, and my connections with Solara, her daughter Elara, and the rest of the Star-Borne during this year. And I'm looking forward to the [REDACTED] Activation being held in [REDACTED]

I continue to try and be as open as possible to all the New Information that comes my way. I continue to resist defining and categorizing my experience. I am profoundly grateful for all that has been revealed to me and through me [REDACTED]. The 111 experience continues to astound me and amaze me. It is a wonderful adventure!!!

[REDACTED] I have a long way to go before I will feel comfortable being at TA\*ANUA with the rest of the Star-Borne. I am continuing to HEAL MY HEART but will not be attending [REDACTED]. I am, however, in the middle of making my move to the Heartland - Kansas!!! I am leaving the East Coast. I am going out there to be with my new significant other and Twin Flame - Lisa D. Grey. We plan on living in Lawrence and I'm planning on working in the Kansas City area [REDACTED]. I am certain that this move will generate additional links to other Enlightened Ones who share mysteries similar to mine.

[REDACTED] Everything has progressed so wonderfully. Not only was I able to find work with [REDACTED] but Lisa and I were drawn to wonderful townhouse in Lawrence, Kansas - our New Home!!! On the paranormal front: The interlocking triangles (angles, actually) have shown up in two very special Rune stones that Lisa gave me. I have begun to try and understand why some folks feel that they have already opened all 11 Gates of the 11:11, and just before I left New Jersey, I was able to connect with a woman from Pennsylvania who actually went to the [REDACTED]. These connections keep coming fast and furious, and they continue to astound me!!!

[REDACTED] A couple of things that I keep forgetting to mention and they have to do with some amazing 111s in Lisa's life as well. Lisa designed a T-shirt in 1993 that has something like the recycle "circle" on the pocket and around that it says ONE ONE ONE (it is part of a "motto" for her dorm at the time). ALSO - her "employee number" with [REDACTED] is 110131 which has an unusually large number of 1's in it and one 3. Lisa is such a supporter - she is truly wonderful and we are so very much IN LOVE. I'm planning on posting "the 111 experience" at her emerging Gravitygirl Website.

Lisa and I went over to a small town called Stull 15 minutes from Lawrence. The rumor says that the Devil itself (or some being that identified itself as the Devil) appeared there to several of the town residents. There was supposedly a very old building on the cemetery property where the incident allegedly took place. We quickly found the cemetery but it was padlocked shut - there's even a huge (possibly electric) fence around the whole lot. The building is there too - it's walls are now incomplete and it hasn't got any roof. The only thing left completely standing is the left side wall (as you're facing it). The wall has three very thin, long windows down the side. Lisa and I both new what we were looking at - 111 !!! We turned our heads at almost the same time to see the front doors of the church right across the street from the cemetery. It had three very curious windows on its front door: three long thin windows - with the middle one smaller and thinner. I'm not sure that I like 111 coming up in this place but I must continue to investigate the "Stull Incident" with Lisa. She has been my guide and my connection

[REDACTED] to this region. Our Love is just amazing.

The new system I am supporting out here is One of the Three [REDACTED] in the [REDACTED] [REDACTED] for the part of the company I work for. I am seeing them, of course, as unmistakably similar to ONE ONE ONE. A new friend at work that I showed the previous version of this document to helped build a sailboat with his grandfather when he was a kid. The number of the boat (on the sail and on the boats side) was 6111. He even has a sweatshirt with the boat on it - and it clearly shows the 6111 on the sail. This same guy's ID begins with 111 (and he was the only one - so far- that I chose to share this with !!!). These Synchronicities continue to astound me...

[REDACTED] I have made numerous changes to the document with this update. For starters, Lisa helped me to jazz up the appearance of the 111 experience by adding background color and changing the font and font color too (they are now my faves - PURPLE and GREEN). I've also added more descriptive headings to each section and changed the "title section" of the document as well. I have also removed one reference to a specific person's name AS WELL AS the numerous references, by name, to the [REDACTED] that I work for. If you know me, [REDACTED]. I was very politely advised to do this [REDACTED]. No harm done in the meantime, but since this is out here on the web now, it needs to become a little more "generic" when it comes to certain key facts. Those who know me personally know all the real names, other "real" details, etc. For those of you who don't know me personally, well, PLEASE TRUST ME. All this stuff is true. All this stuff is very REAL. Quick update on the Stull, Kansas thing mentioned [REDACTED] we never went back to the cemetery after that day. We are entirely focused on the integration of our lives right here in Lawrence and have not felt called back to the Stull Cemetery. That mystery is just going to have to wait in line. There are a couple of amazing new Synchronicities, though, to report on with this update.

First off, I would like to say a word about the term SYNCHRONICITY. That term was first introduced to me in 1983 by the POLICE with their album called SYNCHRONICITY. There are two songs called SYNCHRONICITY on the album: SYNCHRONICITY I and SYNCHRONICITY II (I & II !!!). The fact that they chose Roman Numerals that looked like a "one" and an "eleven" (rather than "1" and "2") and the fact they were singing about SYN (same) and CHRON (time) and the fact that by 1983 I already been seeing 1:11 on digital clocks for nearly three years at that point, MADE ME FEEL A VERY SPECIAL CONNECTION TO THIS ALBUM. The cover of the album shows three wide streaks of paint superimposed upon the faces of the three members of the band. Some time in the mid-80's, I acquired a promotional button with just the THREE STREAKS on it. SYNCHRONICITY's linkage with the 111 experience was, as I'm sure you can understand, unavoidable.

I also found several papers [REDACTED] about SYNCHRONICITY by C. G. Jung. He had done much of his work on this topic in the early 1950's. The title of the most popular one is "SYNCHRONICITY - An Acausal Connecting Principle." It attempts to describe the experience of people who assign special significance to seemingly random events. Since that pretty much described what I had been doing with 111 [REDACTED], I found his work quite interesting. He does acknowledge that some pretty strange things do happen to us in this world of varied activities and varied associations. He warns us, though, that ANY real belief in a supernatural connection to the ACAUSAL EVENTS (the seemingly unrelated events) is to be discarded as pure folly. I would, along with hundreds of millions of others, respectfully disagree with Mr. Jung on that point. And based on my most recent experiences with the QABALA, it appears that my 111 experience may actually be a prophetic vision with links into this, the most ancient of all sciences.

Now that all that has been said, I will relay this new experience. I have very recently connected

with a large body of folks who say that we should view SYNCHRONICITY as one of the most powerful tools humankind has ever had its hands on. Last weekend, I sent e-mail to [REDACTED] (the author [REDACTED]), his wife, and their Webmaster. Well, about 2 hours later I received e-mail from someone who had a "111" in their e-mail ID. I thought that this was funny when the mail came into my "in box" but when I actually opened it, much to my amazement, it was from the Webmaster of the [REDACTED]. The reason he has 111 in his e-mail ID is because his birthday is JANUARY 11th !!! He thought that this was a very interesting coincidence since my e-mail also has 111 in it (as well as 2 of the 3 letters he has in his e-mail ID) and I was writing to tell him of something called "the 111 experience".

I have sent him [REDACTED] additional "documentation" of my 111 experience and am waiting to hear back from them. His initial reaction to these SYNCHRONICITIES around ONE ONE ONE was curiously subdued. I told him that the earliest reference I had found to 111 (other than in Sefer Yetzirah, The Book of Creation) was from Aleister Crowley in the early 1900's. I asked him if he knew that the Doorway of the 11:11 was opened on his birthday in 1992. I hope he investigates Solara and the Star-Borne (if he hadn't already done so). I hope that I might be responsible for facilitating subsequent contact between [REDACTED] and the Star-Borne. Quite frankly, I'm hoping that they already have hooked up at some point over the past 4 years. [REDACTED] came out in 1993 thrusting [REDACTED] into the Global spotlight and Solara has been all over the world and VERY visible since the Opening of the 11:11 Doorway on 1-11-92. We will see what happens with this one. As always, your faithful scribe (that's me) will record the events here.

I finally got a copy of the Sefer Yetzirah - The Book of Creation. It is perhaps the most ancient of all the Qabalistic texts. It was reportedly written by Abraham thousands of years before Christ and has seeded almost every Western Mystery School tradition that ever was. A preview of some of the things that I have found: there are "32 mystical paths of Wisdom" ; the Universe was created "with Three Books, with text, with number, and with communication" ; there are "22 Foundation Letters: Three Mothers, Seven Doubles, and Twelve Elementals" ; chapter 1 verse 11 begins with the bold statement "Three: Water From Breath." ; "Twenty-Two foundation Letters: He placed them in a circle like a wall with 231 Gates" ; many, many statements about the Three Mothers (the Hebrew letters Alef, Mem, and Shin); many references to Seven (which, if you recall, is 111 in "base 2"/binary); the Seven Seals - one of them is called Tath and is a "spear over three lines" (111) and another is known as Agrepti which is a "spear over four lines" (11:11). There is so much mystery and wonder to be experienced in this book that I don't even know where to start. I am trying not to be swayed by the translation and the translator's comments (which is, admittedly, a very difficult thing to do). I am seeing this book as the basis for modern day numerology as well. It explains the full significance of the 22 Hebrew letters. It's why the Masons have 32 degrees of initiation. It's why Seven is so special. I'm thinking that it may be THE ROOT SYSTEM OF ALL (after all, it IS the Book of Creation !!!).

I continue to keep an open mind and I continue to resist categorizing or defining the 111 experience. It remains experiential. At this point, I plan to continue my studies of the QABALA through experiencing the Sefer Yetzirah. I will continue to keep posted on the activities of the Star-Borne, Solara, and TA-Anua through their website and e-mail communication with them. I'm really wondering what direction [REDACTED] will take with me and my 111 experience. I know it's hard to believe, but all this stuff is really happening to me. I have been given a very wonderful gift. the 111 experience continues to amaze me and continues to amaze those who come into contact with this little slab of HTML. One final note about the QABALA - I know that my work is cut out for me as I begin to focus completely on interpretation of and experience with The Book of Creation - Sefer Yetzirah. I do not take this task lightly. But my work with the Qabala is based on a very natural progression of events and revelation. NOW IS THE TIME !!! I will report on my continued experience in future updates. [REDACTED]
